PERVAZ MAKİNELERİ
L SHAPED MOULDING MACHINES
Станки для телескопического наличника

TR

1994 yılında kurulan Hizmet Him Makina, üretim yolculuğuna kenar bantlama makineleri ile başlamış, düz ve eğri kenar bantlama alanında geliştirdiği yenilikçi modellerle sektöre katkı sağlamıştır. **2005 yılında** müşteri ihtiyaçlarını dikkate alarak tamamen kendi AR-GE'si ile geliştirdiği **pervaz makineleri** üretimine başlamıştır. Kenar bantlama teknolojilerinden ilham alarak geliştirilen bu yeni makine türü, pervaz üretiminde **hız, kalite ve verimlilikte çığır açan bir çözüm** olmuştur.

Bugün Hizmet Him Makina(HHM Makina), üretim hattını **tamamen pervaz makinelerine odaklamış**, farklı ölçü ve tasarımlarda kapı üreticileri için **dünya çapında güvenilir bir çözüm ortağı** haline gelmiştir. “**Dünyanın pervaz makinesi üreticisi**” olma vizyonu ile faaliyetlerini sürdüren firmamız, müşteri geri bildirimlerini sürekli AR-GE çalışmalarına entegre ederek makinelerini daha da ileriye taşımaktadır. Donanımlı ve tecrübeli ekibiyle, en güncel teknolojileri takip ederek üretim hattını sürekli geliştirmektedir. Böylece kapı imalatçılarına **üstün kalite, yüksek dayanıklılık ve maksimum üretim verimliliği** sunan makineler üretmektedir. Ayrıca Hizmet Him Makina, yalnızca üretim değil; **yurtiçi ve yurtdışında anında servis, yerinde eğitim ve satış sonrası destek** hizmetleri ile de müşterilerinin yanında yer almaktadır.

30 yılı aşkın tecrübemizle, ağaç işleme makineleri sektöründe markamızı küresel ölçekte konumlandırıyor; inovatif çözümlerimiz ve mühendislik gücümüzle **özellikle pervaz üretiminde dünyanın en büyük ve güvenilir çözüm ortağı** olma hedefiyle ilerliyoruz.

ENG

Founded in 1994, Hizmet Him Makina began its production journey with edge banding machines, introducing innovative models for both straight and curved edge applications. In **2005**, by closely listening to customer needs, the company launched the production of **L shaped moulding machines** developed entirely through its own R&D. Inspired by edge banding technology, this new machine type brought a **revolutionary solution in speed, quality, and efficiency** for L shaped moulding manufacturing.

Today, Hizmet Him Makina is **fully specialized in L shaped moulding machinery production**, becoming a **trusted global partner** for door manufacturers with diverse sizes and styles of L shaped moulding production. With the vision of being “**the world's L shaped moulding machine manufacturer**,” we continue to advance our machines by integrating customer feedback into ongoing R&D efforts. With a skilled and experienced team, we continuously upgrade our production line with the latest technologies. As a result, we provide door manufacturers with machines that deliver **superior quality, high durability, and maximum production efficiency**. Beyond manufacturing, Hizmet Him Makina stands by its customers worldwide with **on-site training, immediate technical service, and after-sales support**.

With **over 30 years of experience**, we are positioning our brand on a global scale in the woodworking machinery sector. Through our innovation and engineering strength, we are moving forward with determination to become the **leading and most reliable global partner in L shaped moulding production**.
