ABOUT THE COMPANY

eastconsult® was founded in 2007 by an Austrian engineer and is engaged in design, consulting, development of project documentation, construction of industrial facilities and supply of equipment in various fields of industry in Europe, Asia and Africa. The company has extensive experience in the woodworking industry, especially in PB, MDF and OSB production.

The main goal of eastconsult® is to assist investors in the implementation of industrial projects and the provision of a one-stop-shop solution.

We support companies from various business sectors and act as representatives of their products on the international market.
