Foreward:

AISHWARYA AGRIPROCESSORS PRIVATE LIMITED is one among the finest Rice Industry of India. Based in the South Indian city of Hyderabad, the foundation stones of Aishwarya Agriprocessors were laid by Shri Lalchand Ji Tajpuriya (LJT).

Initially LJT started with rice trading approximately in the year 1950. As the business grew prosperous, he established a trading firm since 1980 onwards and later started rice mill under the name of 'Aishwarya Industries'. This mill supplied fine rice to supermarkets and whole sellers on India National Platform.

In the year 1998 we imported the Satake Machine for our rice mill from Japan & later in 2000 we imported complete rice milling plant from satake and others. This definitely added another feather to our motive to provide with good quality rice in the market. With years passing by we have climbed the ladder of success step by step with the support of well wishers of this company.

In the year 2003, under the guidance of Mr. Om Prakash Goel and Mr. Naresh Kumar Goel who followed the golden steps of their father to expand the business. They started to export rice to Singapore, Dubai, U.S.A, U.K, Africa, Australia and New Zealand to name a few.

Organisation Profile:

Mr.Naresh Kumar Goel
(C.E.O)

Mr.Prashant Kumar Goel
(Director)

Mr.Manish Kumar Goel
(Managing Director)

Mr.Kanaihya Goel
(Global Exports Head)

Production and Milling:

Aishwarya Agriprocessors approximately processes 50000 Metric Tons per annum. The paddy is procured mostly from Telangana, Andhra Pradesh and Karnataka & Pan India. Our state of art PLC - an automated process for parboiling unit helps us in maintaining our high standard quality of Rice produce.

PROCESS FLOW OF MILLING

- De-husking of Paddy
- Milling of Paddy
- Grading of Rice
- Fumigation of Rice
- Sorting of Rice
- Quality Check of Rice (Sortex)
- Packing of Rice
- Screening Through Metal Detector
- Loading in Container

The company stays in tune with changing times and uses the latest equipments and technologies available in the global markets. This is what sets Aishwarya Agriprocessors apart from others of its kind. The company's state-of-the-art processing plant includes the cutting-edge machineries for complete processing of paddy - rice milling - fumigating and sorting to packaging. The plant is maintained in a clean and hygienic condition as per the FSSC 22000 Standards.

Paddy Sourcing

Paddy is source from the southern India states of Telangana, Andhra Pradesh and Karnataka & Pan India directly from farmers and from sourcing mandis. The main months of procurement is from October to January and then later from march to June. This choice helps us to maintain best quality of paddy.

Storage in our Mill :

4000 Tons of Paddy can be stored in 2 Silos having each capacity of 2000 Tons each and Designated Warehousing is available at factory godowns to store more paddy as per customers requirement.

Factory stuffing of rice for Exports:

We also do factory stuffing of the containers which helps us in preventing frequent loading & unloading at various places like ICD AND Ports Warehouse in India.

Laboratory Test Facility at Factory:

In house Lab facility is available to check the Parameters for the Whiteness of Grain Broken, Chalky Grain, and Discoloured Grains Percentage.

Parboiling Plant:

PLC Based parboiling plant help us in giving the best quality steam and parboiled paddy ready for milling. The quality consistency is maintained in this plant
