Leading the Future of Nuts Processing Worldwide

Aljameel International stands at the forefront of the nut industry as a global leader in manufacturing, proudly operating one of the most advanced pistachio and walnuts processing facilities in the world. Our fully automated plant is powered by cutting-edge AI and deep learning technologies, with an impressive annual capacity of 45 million pounds of pistachios and 40 million pounds of walnuts.

Strategically based in Dubai – the world's premier logistics hub – we are perfectly positioned to serve customers across the globe with speed and efficiency.

Committed to quality, innovation, and excellence, Aljameel International holds all the essential international certifications to fulfill the diverse requirements of our global clients.

From farm to final product, we are setting new standards in the nut industry.
Aljameel International is not just shaping the future - we're defining it.

Rooted in tradition. Driven by innovation.
