

ABC Fruits

Nature's Essence

Purees | Concentrates | IQF

ABOUT US

ABC Fruits is a leading manufacturer of tropical fruit purees, concentrates and IQF fruits and vegetables. The company was founded in 1997 in Krishnagiri, Tamilnadu, India.

Our meticulously selected ingredients serve the discerning needs of customers across diverse segments within the global food processing industry, spanning over 80 countries.

VISION

To provide quality food ingredients to global clients in a sustainable and innovative manner, creating long-term value for our partners, farmers, and communities.

OUR HISTORY

1997
Marked the inception of our company as a small manufacturer specializing in the production of canned puree products.

2007
We bolstered our production capacity by incorporating an additional aseptic line to bring a total capacity of 10 tons per hour

2003
We took a significant stride forward to diversify our business by incorporating our first aseptic line, to produce an output of 4 metric tons per hour.

2010
We added a sustainable facility in Bargur with 2 aseptic lines that utilizes renewable biogas energy to power most of our production capabilities.

2022
We established a state-of-art frozen facility in Bargur fully powered by solar energy. We also acquired an aseptic facility in Chittoor.

2025
We have setup a new office in Chennai for export logistics and sales to ensuring smooth operations, timely shipments and reliable global customer support.

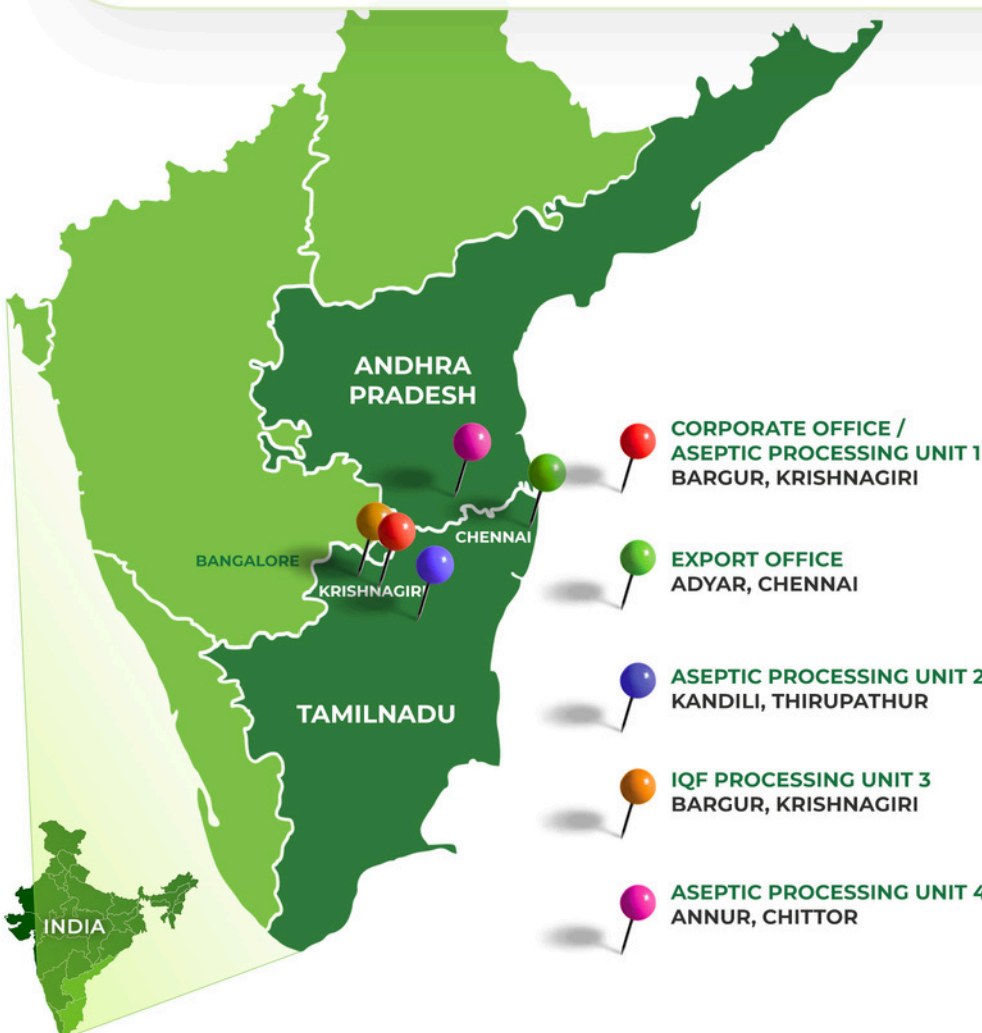

EXTENSIVE MANUFACTURING CAPACITY

Strategically located near key cultivation regions, our advanced processing facilities enable efficient production of a diverse range of fruit and vegetable products.

With four production units across South India, we supply quality purees, concentrates, and IQF products, including organic variants, to customers worldwide.
